

U.S. Quality Large Cap

FLEXSHARES EXCHANGE TRADED FUNDS

[MUSIC PLAYING]

Between your current financial needs, your major future expenses, and a lifetime of goals in between, your portfolio has a lot of heavy lifting to do. And just like any weightlifter, your portfolio needs a strong core-- the workhorse assets that consistently and reliably drive performance. That's why FlexShares has introduced QLC, a brand new product designed to strengthen your core by focusing on quality in large cap stocks.

Most portfolios use just a broad mix of large cap stocks to form their core, so their performance oftentimes is tied to how the larger market is doing. At QLC, we go a step further. We start by taking the largest companies and analyzing them for key quality indicators, profitability, management efficiency, momentum, cash flow, and other strengths.

Using this information, we're able to rank them on an overall quality score-- weeding out what we deem are the low-quality performers while keeping only the highest scored stocks for our QLC product. QLC is designed to help you build your core with firms that our quality score rates has expertly managed, well-established with an anticipated stable cash flow. To learn more about this exciting new product, visit us at flexshares.com or call today at 855-FLEXETF.

FlexShares, built by investors for investors.

Before investing consider the Fund's investment objectives, risks, charges and expenses. Go to flexshares.com for a prospectus containing this information. Read it carefully. Foreside Fund Services, LLC, distributor.
